

PRIMA AUTOWASH FX WM

A water miscible All solvent category product approved by FOGRA for Heidelberg, MAN Roland, KBA and Baldwin specifications. Zero aromatics combined with full corrosion inhibition make this advanced automatic wash suitable for all automatic systems.

- Approved for all major press manufacturers
- Non-flammable formulation
- Very low rubber swell

DIRECTIONS FOR USE

Automatic Washing Equipment (blanket and roller)

For best results, follow the equipment manufacturers' operating instructions, FXWM is generally added undiluted to the equipment tanks on the press.

Manual Blanket Washing

Mix with 20% water and apply with a rag or sponge: or, dampen rag with water, add FXWM and scrub the blanket.

Manual Roller Washing

Use FXWM undiluted or with up to 25% water and use with wash-up attachment.
