

Varn V60 Plus

Blanket and roller wash

Varn V60 Plus is a new improved formulation roller and blanket wash that incorporates a unique emulsifying package and solvent blend to provide vastly superior ink solvency over many of the comparative washes available in today's competitive marketplace.

Varn V60 Plus is a AIII classification roller and blanket wash that meets the approval of all major O.E.M.'s.

Varn V60 Plus has been proven to reduce wash up cycle time and the volume of solvent typically used.

Varn V60 Plus has high anti-corrosion protection and so is ideal for new presses and automatic roller and blanket washing systems.

Features	Advantages	Benefits	Product Benefits
Superior ink solvency power over similar marketed products.	Faster wash-ups. Less volume required.	Reduced downtime. Cost effective.	<ul style="list-style-type: none"> • Excellent ink solvency. • FOGRA approved. • Recommended for automatic roller and blanket washing equipment. • Safe on all plates including CtP material. • High flashpoint (>60°C) AIII. • High press corrosion protection. • Low odour.
Economical in use.	Lower consumption. Less waste solvent.	Cost effective. Reduced disposal considerations.	
Approved by leading original equipment manufacturers.	Compatible with automatic wash systems. Validates warranty.	Versatility of application. No rubber swell on press components.	
High flashpoint (AIII classification).	Conforms to UK HSE Solvent Substitution Scheme. Low-hazard.	Environmentally responsible. Safer in use/storage considerations.	
Low odour.	Safer pressroom environment.	Improved conditions for pressmen.	

Directions for use

Blankets:

Varn V60 Plus should be used neat in automatic wash systems or for manual applications can be mixed with up to 20% water to remove gum glaze, ink and lint.

Rollers:

Varn V60 Plus should be used neat in automatic wash systems or for manual applications can be mixed with up to 20% water to remove gum glaze, ink and lint.

For optimum performance use in conjunction with Varn Take it off/Revitol and Varn Calcium Deglazer as part of a regular press maintenance system.

For even greater efficiency use in conjunction with Varn Aqua Plus wash water additive.
